MEMORANDUM FOR: Executive Officer to the DDA
VIA: Chief, Regulations Control Division, OIS/DDA
STAT FROM:
Acting Director of Logistics
SUBJECT: Energy Conservation

1. Attached for concurrence and publication is a proposed employee bulletin advising that properly inflated tires can increase fuel efficiency by as much as 5 percent.

2. This bulletin is part of a continuing program by the Interagency Federal Energy Policy Committee to encourage energy conservation. Please contact the Plans and Programs Staff, OL, on extension should additional information be required.
